Disabling Text Prediction function in Outlook 365 Webmail

At the upper Outlook webmail task bar, click on the gear

Begin typing "text predictions" in the search box. It will appear at the top of the list. Click on it:

A new window will open. At the bottom is a check box for Text Prediction:

Settings	Layout	Compose and reply	×
	Compose and reply		
 Sector sectings Sector sectings General Calendar 𝔅^A People View quick settings 	Attachments Rules Sweep Junk email Customize actions Sync email Message handling Forwarding Automatic replies Groups	Quick suggestions As you type a message, Outlook can highlight keywords in the text and suggest helpful information, like restaurants ney you can insert in your message. ✓ Offer suggestions based on keywords in my messages ✓ Offer suggestions based on keywords in my messages ✓ Use my browser location to find places near me Suggested replies When you open a message, Outlook might suggest replies below the message. If you select a reply, you can edit the reply before sending it. ✓ Show suggested replies Outlook can suggest words and phrases as you compose messages. When Outlook offers a suggestion, press Tab or thright arrow key to accept it. ✓ Suggest words or phrases as 1 type	t

Uncheck the box. Click on the **SAVE** button to save your changes.

Text predictions should now be disabled.
